SANITARY SEWER REHABILITATION PROGRAM

1. GENERAL

The City of Atlanta (City) is presently implementing a program to upgrade its existing sanitary sewer system to eliminate sanitary sewer overflows (SSO). To accomplish this objective, the City is implementing a series of system improvements including:

- Sanitary Sewer Evaluation Survey (SSES) to evaluate structural condition of the sewer system and develop recommendations for rehabilitation of sewers.
- Repair/rehabilitation of sewers utilizing various techniques, including Cured-in-Place Pipe, pipe bursting and point repairs.

The Bureau of Engineering Services, Department of Watershed Management is managing the SSO program and requires assistance to provide supplemental field staff for construction contract management and construction inspection.

CONTRACT MANAGEMENT

Contract management includes those activities necessary to coordinate the overall management of the rehabilitation work including coordination of the construction activities, review of contractor pay requests, RFIs and submittals.

The JV will provide qualified contract managers and administrative staff as requested by the Bureau of Engineering Services to be assigned to the Sewer Rehabilitation Program field offices.

CONSTRUCTION INSPECTION

Construction inspection includes those activities necessary to document contractor compliance and conformance with the contract plans and specifications, documentation of work performed and documentation of pay items in monthly contractor pay requests.

The JV will provide qualified field engineers and construction inspectors as requested by the Bureau of Engineering Services to be assigned to the Sewer Rehabilitation Program field offices.

MANAGEMENT ANALYSTS

The primary responsibility of Management Analysts is to coordinate the administrative aspects of the office or offices and to ensure that the office(s) are

working efficiently. These positions will normally report to the Area Manager or the Contract Manager for a project.

The JV will provide qualified Management Analysts as requested by the Bureau of Engineering Services to be assigned to the Sewer Rehabilitation Program field offices.

PROJECT CONTROLS COORDINATORS

The Project Controls Coordinator is responsible for scheduling, monitoring cost and document control within an area or project. Other activities may include reconciling pay requests with progress reported on daily basis and maintaining master schedule for an area/project.

The JV will provide qualified Project Controls Coordinators as requested by the Bureau of Engineering Services to be assigned to the Sewer Rehabilitation Program field offices.

PUBLIC INFORMATION MANAGERS

The Public Information Manager is responsible for coordinating with the City's Public Information Department, general public, community organizations, and public officials for construction work near the area(s) of concern, attending public and community meetings and facilitating press releases.

The JV will provide qualified Public Information Managers as requested by the Bureau of Engineering Services to be assigned to the Sewer Rehabilitation Program field offices.

EASEMENT RESEARCHER

The Easement Researcher is responsible for perform a 100-year Individual Easement Search or 100-Yr area blanket search, and parcel matching where applicable, on all private properties affected by program activities and coordinating the entry/availability of such data in to GIS systems.

The JV will provide qualified Easement Researchers as requested by the Bureau of Engineering Services to be assigned to the Sewer Rehabilitation Program field offices.
